

Brand Name: IAP Air Products

Product Name: Tele

Product Class: Fume Arms, Telescopic

Date: 2-12-2018

The IAP Air Products Telescopic Fume Arm is specifically designed for confined areas, where fume extraction must be accessible, effective, and easily adjustable. The arm functions through a telescopic internal assembly that adjusts from 39" to 62". The arm will rotate 360 degrees. The wall bracket is heavy-duty steel powder coated black with (4) ½" holes pre-drilled mounting holes. The hood is a fiber reinforced black PVC. The hose is fire retardant rated for 275-degree F.

Contractor needs to ensure field supplied supplemental wall blocking that will support the weight of the arm is pre-installed before fume arm installation.

Arm Part #	Tube Diameter [inches]	Arm Length [Feet]	Hood Diameter [inches]	Mounting Configuration	Typical Restrictions and Air Flow [inches wg]	Arm, Bracket and Hood Weight [lbs]
W02-01-TELE	6"	5'	12"	Hanging	3.0 @ 800 cfm	50.0
